**RE: Arizona Telephone Company;
Remove, Grandfather, or Revise Several Features – Changes to Network Facilities**

Docket Control:

T-02063A-16-0281

Enclosed please find the original and 13 copies of the following tariff sheet (s):

Section 3

Third Revised Sheets 9 & 10

First Revised Sheet 9.1

Section 5

Second Revised Sheets 1 & 2

Section 16

First Revised Sheet 1

The purpose of this filing is to remove, grandfather, and/or modify certain services and features offered by the Company. The Company is updating or will not be offering these services due to changes in network facilities. The services affected include: Warm Line (CCS), Hot Line (CCS), Off-Premise Extensions provisioned in or through the Central Office, and Bridged Service.

With this filing, we will also be revising the language for Off-Premise Extensions in order to standardize the offering with other TDS Telecom companies. The changes will not affect the rates being charged for the service.

The proposed effective date for this filing is September 13, 2016.

If you have any questions, please contact me at (608) 664-4169.

Sincerely,

Rachelle A. Ladwig

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

4. Call Waiting/Cancel Call Waiting

This service alerts a customer who is on the phone that another local or long distance caller wants to get through the line. The customer will receive a tone signal to indicate another incoming call and the caller will receive the usual ringing tone. To place the first call on hold and answer the incoming call, the customer depresses the switchhook once. The customer can then toggle between both calls by depressing the switchhook. If the customer hangs up when a call is still on hold, the customer's line will automatically ring back.

Cancel Call Waiting allows a Call Waiting customer to deactivate the Call Waiting service by dialing a code. When this service is activated, the customer will not be interrupted by the Call Waiting tone and the incoming caller will receive a busy signal. Call Waiting will remain disabled for the rest of the call, but will be automatically restored upon call termination.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

5. Speed Call 8

(T)

This service allows the customer to keep a list of eight specified telephone numbers which can be dialed by using a one-digit (2 through 9) access code.

6. Speed Call 30

(T)

This service allows the customer to keep a list of 30 specified telephone numbers which can be dialed by using a two-digit (20 through 49) access code.

7. Toll Restriction

(T)

This service enables customers to restrict all or a combination of 0+ and 1+ toll calls from being placed over their exchange lines/trunks. When a restricted call is attempted from a line/trunk equipped with this service, a dial tone or Company recorded announcement will be heard by the caller.

C. LIMITATIONS

1. Custom Calling Services require special central office equipment and will be provided only where facilities are available.
2. Custom Calling Services are only available on single-line party service.
3. Custom Calling Services will not be provided in connection with Paystation Service (except for the business line extension), Private Branch Exchange Trunk Line Service, or Centrex Service.

OFF-PREMISE EXTENSION⁽¹⁾

A. GENERAL

Off-Premise Extension (OPX) is a telephone line that connects a station located in a separate building to the main station at the Network Interface Device or at the pedestal. This allows the phone at each location to ring at the same time.

B. CONDITIONS AND LIMITATIONS

1. OPX will only be provided where technically feasible and is subject to the availability of outside plant.
2. Mileage charges will be based upon the airline mileage between the locations of the primary (main station) and secondary line terminations.
3. For multi-point channels, the mileage is the shortest airline distance between each building in which the channel terminates. The charging mileage is the combination of such segments of distance which results in the lowest total mileage for the entire channel.
4. OPX is only provided to locations residing within the same exchange as the main station.
5. OPX may be located on the premises of another customer provided the other customers have a separate access line service at that location.
6. The Telephone Company may limit the number of off premise extensions connected to a line.
7. OPX is limited to voice grade service.
8. Calls made to 9-1-1 from the extension station may only list the main station in the 9-1-1 database.
9. The rates listed below are in addition to the Basic Local Exchange Service.
10. Non-recurring charges as stated in Section 12 apply.
11. If supporting structures are necessary for the purpose of furnishing OPX extensions on the customers premises or the extension involves unusual construction or disproportionately large expenditures as compared with usual types of construction, the customer may be responsible for the additional costs of construction.

⁽¹⁾ Off-Premise Extensions provisioned in or through the Central Office are grandfathered to existing customers effective September 13, 2016. This version of the service will not be available to new customers after this date.

BRIDGED SERVICE⁽¹⁾

(C)

A. GENERAL

1. Where a subscriber wishes to contract for two main stations at two separate locations in the same exchange area, but also wishes to be able to answer calls from one station or either station at the other location, the arrangements described below are provided subject to the availability of the facilities necessary to furnish satisfactory service.
2. Combined main station service may be employed where one station is at a business location and the other is at a residence or where both stations are at either business or residence locations. However, such an arrangement is permitted only on the premises of the same subscriber or where the subscriber at the residence location is associated in business with or is an employee of the subscriber at the business location.
3. In any arrangement for combined main station service, each station is assigned its own telephone number.

B. EQUIPMENT ARRANGEMENTS

1. One type of combined main station service is available as follows: The bells at both stations will ring when either station is called.

C. RATES

1. The rate for individual line business service applies for the business station and the rate for individual line residence applies for the residence station where 2 cable pairs are used. Where the same cable pair is used the 2 party line business rate and 2 party line residence rate applies.

⁽¹⁾ This service is grandfathered to existing customers effective September 13, 2016. The service will not be available to new customers after this date.
